Organized & Managed by
Maj Gen Badrul Millat

Our Commitments:

- *Highest Quality*
- *'Your' satisfaction*
- *Timely handover*

Plot 038, Rd: 504, Sec: 14
Jolshiri Abason

The Project at a glance

- 9 Storey (G+8) building.
- 2850 sft area per floor.
- NE-30´green, 8´ walking track & 200´ wide lake.
- SW- 60´ wide road.
- 4 beds, 5 baths, 7 balconies.
- Close to Central Park & Central Business District (CBD)

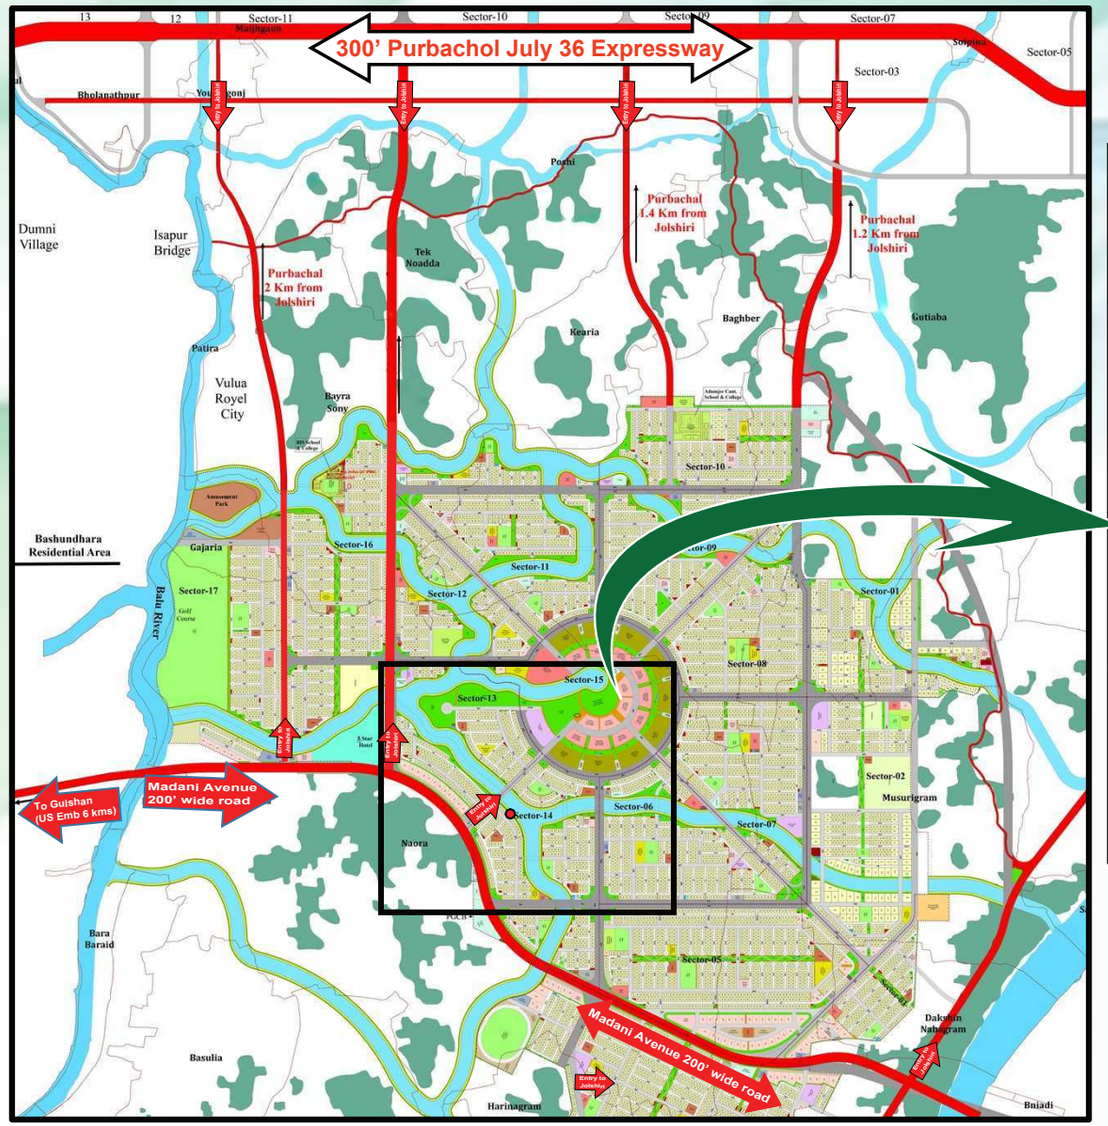

JOLSHIRI ABASON
Bangladesh's First Smart City

- Jolshiri Abason is being developed as a modern township- the first of it's kind in Bangladesh- under the direct supervision of the Bangladesh Army.
- Spread across around 2,200 acres of land, 52% is reserved for residential and commercial zones, while the remaining 48% is dedicated for lakes, roads, green areas, parks, playing fields, a stadium, a golf course and bicycle & walking tracks.
- The Project includes some of the highest standards of nursery, elementary, secondary schools, colleges, a university, a medical college, and an international-standard hospital. Additionally, each sector will have clinics, mosques, mini-malls and bazars. At the center of the Jolshiri Abason Prokolpo, there will be a Central Business District (CBD) (a commercial hub), with a 5-star hotel.
- Like any modern city in the West, Jolshiri Abason will have all utility lines underground, including water, sewage, telephone, fire hydrants, high-speed fibre-optic data links including electrical lines. Major roads in the Project are 80-150 feet wide, while the internal block roads range from 30-60 feet wide.
- Jolshiri can be accessed from the north via the Purbachol 300' July 36 Expressway and from the south through the 200-foot-wide Madani Avenue in just 5 to 7 minutes. The upcoming Metro Line 5 towards Purbachol will also pass beside Jolshiri.
- Jolshiri Abason could be the ultimate destination for you, your children and grandchildren- a place to live a quiet, peaceful and harmonious life in a highly secure environment. With all the amenities (education, healthcare, shopping, sports, fun) within your arm's reach-- enjoy fresh air, safety and a truely comfortable lifestyle.

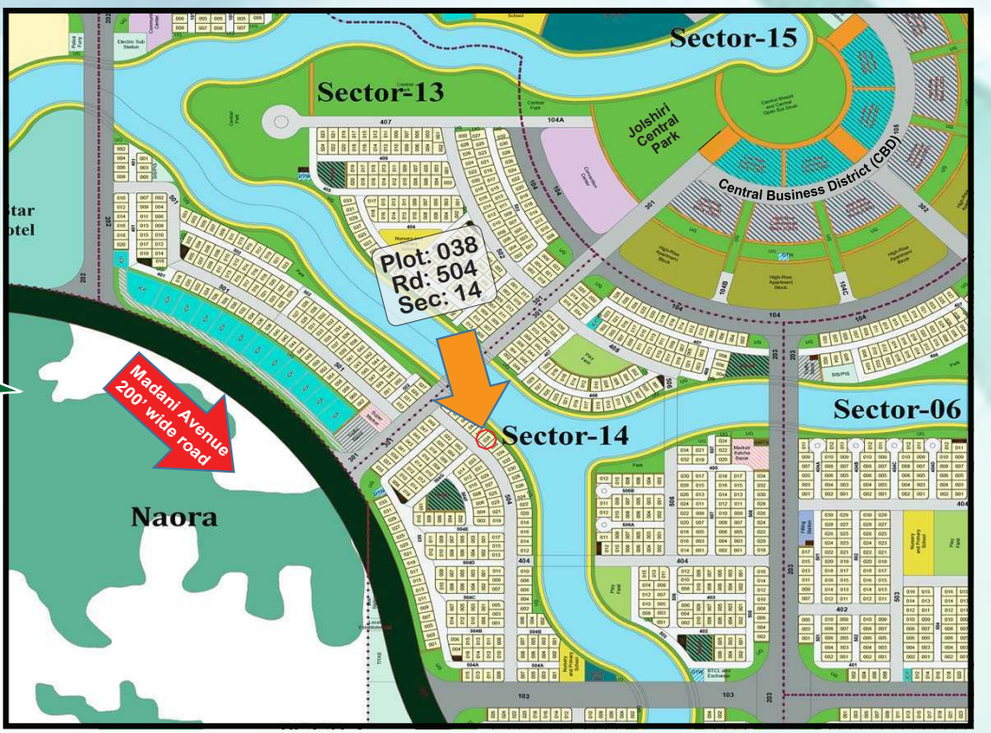

Company Profile

- With the following three guiding principles, **Xen Developments Ltd.** entered the real estate sector, as ***"a construction company with a little difference..."***
  - **Quality** is our prime concern.
  - **Customers' satisfaction** is guaranteed.
  - **Project handover** is always on time, as promised.
- To remain committed to these values, Xen is organized with a team of dedicated professionals, the Company is led by Major General (Retd.) Badrul Millat, while all engineering and technical matters are handled by experienced civil engineers. Every phase of construction is closely supervised and monitored by managers trained at the Housing and Building Research Institute (HBRI). Our architects and civil engineers from BUET ensure both aesthetic elegance and strong structural integrity to the property.
- We use only premium quality fittings for all finishing works and every major construction material- including concrete mixture samples are tested from the HBRI to maintain uncompromising standards.

Building Specifications

- **Structural Aspects:** Structural design is based on the BNBC 2020. Random samples of all construction materials and the cement-concrete mixture are tested by the Housing & Building Research Institute (HBRI).
- **Shear Wall:** RCC shear wall from foundation to the top of the elevetor core, providing additional strength, stiffness, preventing story drift/ swaying and for overall stability to the building from earthquakes and lateral wind forces, transferring the horizontal loads down to the foundation,
- **Material Specification for Construction Works**
  - Steel: Grade-72 deformed bars (billet) from KSRM.
  - Cement: Portland cement from Seven Rings (special)/Shah/Premere brand.
  - Aggregate: ¾" downgraded boulder stone chips are used in foundation, columns, beams, shear wall, overhead and underground water reservoirs.
  - Brick chips: 1st-class picket brick chips are used in floor/roofslabs, false slabs, stairs and sunshades.
  - Walls: 1st-class automatic, gas-burnt bricks are used in all walls.
- **Doors:** Main Door: solid teak; all other doors: veneered flush of Hatil brand .
- **Windows & Glasses**: Thai-cascaded windows with 4mm glass & net, sliding grills with heavy-duty wheels on the inner (room) side of the balcony (no full grills on the outer side), all balcony outer side will be 3.5 to 3.75 feet height with 10mm tempered glasses encased in 2" MS boxes.
- **Tiles**: All floors by 32"x32" mirror polished best quality tiles, except in bathrooms & kitchen; bathroom and kitchen walls with 12"x24" similar tiles.
- **Sanitary**: Basins, commodes, bathroom & kitchen fitting of COTO/TOTO brand.
- **Electrical**: Concealed BRB/BBS/or the best cables inside unbreakable conduits.
  - All electrical switches and sockets from the best companies in Bangladesh, with a warranty of minimum 5 years.
  - Provision of AC in all bedrooms and living rooms.
- **Generator**: A 60 kVA generator of Perkins (engine) & Stamford (alternator) brand from UK will support the elevator, one light & a fan in all rooms, one light in all the baths & kitchen, two refrigerator/freezer points to all apartments and all common areas during power outages.
- **Elevator:** One Korean elevator for 8 persons (630 kg) with 9 stoppages.
- **Sub-Station**: A 150 kVA sub-station with transformer connected from the main line to the building.
- **Other Amenities**: Two water pumps of 3 hp each, WiFi, TV, telephone, internet connections, Intercom to all apartments, landscaped areas with garden and lighting on the front and back at ground level and on the roof. Roof parapet wall of 3.75' height. Heat proofing on the top floor roof.

Terms & Conditions

- **Booking:** After reviewing and understanding the terms and conditions, building specifications, internal layout, one parking space and the external design of the building, the prospective Buyer (Second Party) upon agreeing to purchase an apartment, shall pay a non-refundable booking money amounting taka 5 lacs to the Developer (First Party), who shall allot the concerned apartment and issue money receipt.
- **The Agreement:** A Deed of Agreement (DOA), detailing the terms and conditions, building specifications, payment schedule, project timeline and relevant legal clauses, prepared on a non-judicial stamp will be provided to the Second Party for review. After examining the terms & conditions, any change required on the floor-layout and clarifying the clauses (if any) of the DOA, both parties must reach a mutual understanding. Once they agree, the final DOA shall be executed and signed by both the parties.
- **Payment:** At the time of signing the DOA, the Second Party shall pay minimum 30% of the total contracted price, deducting the booking money paid earlier. The remaining balance shall be paid in thirty monthly instalments, or fewer, if possible, counted from the commencement date of piling works. For instance, if an apartment is purchased three months after piling works have begun, the remaining balance must be paid in twenty-seven (27) instalments.

  All payments must be made through bank draft, pay order or account payee cheques in favour of **Xen Developments Ltd.** Money receipts will be issued accordingly. A payment shall be considered received- only when the amount has been credited to the Company's bank account.
- **Project Timeline Clarification:** All construction timelines mentioned in this brochure are projected based on current conditions. Minor adjustments may occur due to technical, material or environmental factors, if any, will be notified to the buyers. They may visit the site at any time during the construction process.
- **Handover:** Possession of the apartment, along with one parking space and access to all common utilities—shall be duly handed over to the Second Party upon completion of construction and full payment of all instalments. Until that time, the Second Party shall not sell, transfer the apartment to any third party. If the First Party fails to handover possession within the time stipulated on the DOA, the First Party shall be liable to pay the Second Party Taka 40,000 monthly per apartment, provided that the Second Party has made all payments on schedule.
- **Cancellation of the Allotment:** The Second Party must strictly adhere to the payment schedule. Failing to pay two consecutive instalments, the First Party will issue a written notice. After receiving the notice, if the Second Party fails to clear the outstanding instalments (including of the current month, i.e. three months), the allotment will be cancelled without further notice and the DOA shall become null and void. Upon cancellation, the First Party shall refund the amount paid by the Second Party after the concerned apartment has been resold.
